Company specific exercise provided to a client of The Boston School GmbH, please contact the school for permission to use in the correct context.

Do not forget to sign-up for the school newsletter or visit the blog at www.thebostonschool.com for similar learning tips and resources.

 **PART 2 Writing/Definition Exercise**

What department do these components below belong to? Please first write the German translation of the component and then the English name of the department the part belongs to.

Number 1 has been done for you as an example.

English term for component	German term for component	Name of Department
1. semi-finished part	Halbfabrikate	Engineering Plastics Technology
2. v-belt drive		
3. sound insulation		
4. chain band drives		
5. hydraulic tubes		
6. molded gaskets		
7. rotary seals		
8. protective plugs		
9. spring elements		
10. pressure sensors		
11. manometer		

 **PART 3 Speaking Exercise**

Choose one component that you are familiar with. Explain the properties, different designs and applications these components have with a classmate in the room who is not so familiar with it. Explain what customers buy these components and the particularities that one must be aware of when ordering or selling these parts.

Your partner should take notes and report back to the class what they have learned.
